

Postponement of IE expo Chengdu

Dear Exhibitors, Visitors and Partners,

We are aware of the current worldwide situation regarding the spread of the coronavirus Sars-CoV-2 and observe the developments daily. Due to these circumstances and as it is our priority to offer our customers a safe and successful event, this is to announce that IE expo Chengdu is postponed: the trade fair will take place from **October 13 to 15, 2020 at the Western China International Expo City in Chengdu.**

Recently, the show was scheduled for June 30 to July 02, 2020.

IE expo Chengdu is the leading trade fair for environmental technology solutions in West China. The second edition not only rests upon the huge potential of the environmental market in this region, but also on the extensive experience of IE expo in general.

We will give exhibitors and partners our full support for the postponement from June to October.

If you have any question, please feel free to contact us.

We wish you all the best and good health!

Yours sincerely,

Messe Muenchen Zhongmao Co., Ltd.
